

The Emmet A. Craig

Resistance Welding School

Join us at **FABTECH 2016** for the **Emmet A. Craig Resistance Welding School** held November 17 – 18. This two-day program offers participants a comprehensive overview of resistance welding, aided by actual demonstrations that encourage hands-on participation.

This school is the only one of its kind, taught by seasoned professionals from within the resistance welding industry.

- **Have some parts you want to discuss? Bring them!**
- **Have some problems you want to brainstorm? Bring them!**
- **Have associates who need to improve or further their knowledge of resistance welding? Bring them!**

Emmet A. Craig
Resistance Welding School
November 17 – 18, 2016
Las Vegas Convention Center
Las Vegas, NV

RWMA offers this intensive two-day course about the basics of resistance welding once a year. The school is designed to give operators, production supervisors, engineers, and others the opportunity to study, better understand, and further their knowledge in the theory, applications, and equipment used in the resistance welding process. This intense learning atmosphere will better prepare the unfamiliar and further educate the experienced.
